
Academic Director and Clinical Professor (Rank TBD)

Against a backdrop of innovation and momentum and a deep commitment to building a globally recognized and academically rigorous program, NYU School of Professional Studies seeks an academic leader for its renowned Schack Institute of Real Estate. The successful candidate will be a committed educator and industry leader, with a record of achievement in higher education, and evidence of significant roles within the dynamic professional environments of real estate and construction.

Reporting to the Associate Dean of the Schack Institute, the Academic Director will lead Schack Institute faculty and, in collaboration with the Associate Dean, draw support from the field to advance the academic mission of the Institute. The Academic Director will benefit from the collegial support and complementary academic expertise of the other units across the School and the University and will work closely with the Associate Dean to carry out a vision for the Institute that succeeds in increasing its profile and visibility nationally and internationally.

The successful candidate will possess advanced academic and professional credentials (Ph.D., or comparable advanced terminal degree preferred), and a minimum of seven years of substantial academic experience. In addition, s/he will show evidence of:

- conceiving academically sound and timely programs for rapidly evolving disciplines;
- building and sustaining synergies and collaborations within a university setting;
- a vision for higher education that supports rigorous academic standards;
- a commitment to advancing a global agenda and building the global character of academic programs;
- deep interest in engaging with diverse constituencies, including faculty, staff, and students at all levels;
- an ability to support and evaluate the work of a research-active and industry-connected academic faculty;
- an understanding of how to support students' career development and create a curriculum that responds to the needs of employers in the real estate sector;
- decisive, objective decision making that moves processes forward in an environment open to change and innovation; and
- cultural sensitivity and a deep appreciation of diversity.

Schack Institute of Real Estate

The NYU-SPS Schack Institute of Real Estate is among the largest and most prestigious educational entities dedicated to the real estate and construction industries. Schack's esteemed reputation attracts students from around the globe and the Institute sends its graduates equally far afield. The faculty, thought leaders and expert practitioners, combine theory with real-world applicability in their curricula.

Schack offers innovative undergraduate, graduate, and noncredit studies. The undergraduate program attracts highly qualified, traditional-aged students, and is unique for fully integrating a liberal arts education with rigorous, professionally-focused offerings. Schack's three Master of

Science degrees and two graduate certificates accommodate both full-time and part-time students, and equip them with the skills necessary to address the evolving needs of all areas of the real estate industry, including real estate finance, capital markets, construction management, REIT's, and global development. The Institute offers numerous non-credit courses, and sponsors invitational lecture series and conferences, including the Conference on Capital Markets, the REIT Symposium, and the Sustainable Real Estate Conference.

Located in midtown Manhattan, Schack's 13 full-time and 200 adjunct faculty members, along with a cadre of distinguished lecturers, prepare nearly 700 matriculated undergraduate and graduate students to become leaders in their chosen fields. In addition to the exceptional academic preparation, the Institute is also known for its strong ties to industry. Members of its Advisory Board are titans in real estate and construction fields across New York City and the country. Schack's Alumni Association is an extensive global network of professionals in positions of influence.

- Health Information Management
- High School Academy
- Humanities, Arts, and Writing
- Leadership and Human Capital Management
- Management and Information Technology
- Marketing and Public Relations
- NYU School of Professional Studies Initiative for Creativity and Innovation in Cities
- Paul McGhee Division
- Professional Advantage Program
- Schack Institute of Real Estate
- Tisch Center for Hospitality and Tourism
- Tisch Institute for Sports Management, Media, and Business

New York University: An Introduction

More than 175 years ago, Albert Gallatin, the distinguished statesman who served as secretary of the treasury under Presidents Thomas Jefferson and James Madison, declared his intention to establish "in this immense and fast-growing city ... a system of rational and practical education fitting for all and graciously opened to all." Founded in 1831, New York University is now one of the largest private universities in the United States. Of the more than 3,000 colleges and universities in America, New York University is one of only 60 member institutions of the distinguished Association of American Universities.

From a student body of 158 during NYU's very first semester, enrollment has grown to more than 40,000 students attending 18 schools and colleges at five major centers in Manhattan and in sites in Africa, Asia, Europe, and South America. Today, students come from every state in the union and from 133 foreign countries. The faculty, which initially consisted of 14 professors and lecturers (among them artist and inventor Samuel F. B. Morse), now totals over 3,100 full-time members whose research and teaching encompasses the humanities, the sciences, and the social sciences; the law; medicine; business; education; the fine arts, studio art, and the performing and cinematic arts; music; social work; public administration; the ancient world; and professional studies. With more than 2,500 courses offered, the University awards more than 25 different degrees. Although overall the University is large, the individual schools and colleges are small- to moderate-sized units—each with its own traditions, programs, and faculty – and there are many communities to be found within the NYU community based on interests, activities, and shared experiences.

The center of NYU is its Washington Square campus in the heart of Greenwich Village. One of the city's most creative and energetic communities, the Village is a historic neighborhood that has attracted generations of writers, musicians, artists, and intellectuals. NYU, in keeping with its founder's vision, is "in and of the city": the University – which has no walls and no gates – is deeply intertwined with New York City, drawing inspiration from its vitality.

In addition to its Manhattan locations, the University is also located in Brooklyn with the second oldest school of engineering and technology in the country, and has research facilities, notably the Nelson Institute of Environmental Medicine, in Sterling Forest, near Tuxedo, New York.

And NYU has established itself as the first global network university, with a comprehensive liberal arts campus in Abu Dhabi – the first to be operated abroad by a major U.S. research university – and other sites for study and research in Accra, Ghana; Berlin, Germany; Buenos Aires, Argentina; Florence, Italy; London, England; Madrid, Spain; Paris, France; Prague, the Czech Republic; Shanghai, China; and Tel Aviv, Israel, among other locations.

New York University: Mission

Great cities are engines of creativity, and New York University takes its name and spirit from one of the busiest, most diverse and dynamic cities of all. Thriving beyond borders and across academic disciplines, NYU has emerged as one of the most networked and extensive worldwide platforms for learning, teaching, researching, building knowledge, and inventing new ways to meet humanity's challenges. Its students, faculty and alumni feed off the stimulating power of swirling intellectual and cultural experiences by mastering academic disciplines, expressing themselves in the arts, and excelling in demanding professions.

New York University's mission is to be a top quality international center of scholarship, teaching, and research. This involves retaining and attracting outstanding faculty who are leaders in their fields, encouraging them to create programs that draw outstanding students, and providing an intellectually rich environment. NYU seeks to take academic and cultural advantage of its location and to embrace diversity among faculty, staff and students to ensure a wide range of perspectives, including international perspectives, in the educational experience.
