

Associate Dean and Clinical Professor (Rank TBD)

Against a backdrop of innovation and momentum and a deep commitment to building a globally recognized and academically rigorous program, the NYU School of Professional Studies seeks an Associate Dean and Clinical Professor (Rank TBD) to lead its Tisch Institute for Sports Management, Media, and Business. The successful candidate will be a committed educator and industry leader with evidence of significant contributions in academia that include a sustained sports business research agenda.

New York University: An Introduction

More than 175 years ago, Albert Gallatin, the distinguished statesman who served as secretary of the treasury under Presidents Thomas Jefferson and James Madison, declared his intention to establish "in this immense and fast-growing city ... a system of rational and practical education fitting for all and graciously opened to all." Founded in 1831, New York University is now one of the largest private universities in the United States. Of the more than 3,000 colleges and universities in America, New York University is one of only 60 member institutions of the distinguished Association of American Universities.

From a student body of 158 during NYU's very first semester, enrollment has grown to more than 40,000 students attending 18 schools and colleges at five major centers in Manhattan and in sites in Africa, Asia, Europe, and South America. Today, students come from every state in the union and from 133 foreign countries. The faculty, which initially consisted of 14 professors and lecturers (among them artist and inventor Samuel F. B. Morse), now totals over 3,100 full-time members whose research and teaching encompasses the humanities, the sciences, and the social sciences; the law; medicine; business; education; the fine arts, studio art, and the performing and cinematic arts; music; social work; public administration; the ancient world; and professional studies. With more than 2,500 courses offered, the University awards more than 25 different degrees. Although overall the University is large, the individual schools and colleges are small- to moderate-sized units - each with its own traditions, programs, and faculty - and there are many communities to be found within the NYU community based on interests, activities, and shared experiences.

The center of NYU is its Washington Square campus in the heart of Greenwich Village. One of the city's most creative and energetic communities, the Village is a historic neighborhood that has attracted generations of writers, musicians, artists, and intellectuals. NYU, in keeping with its founder's vision, is "in and of the city": the University - which has no walls and no gates - is deeply intertwined with New York City, drawing inspiration from its vitality.

In addition to its Manhattan locations, the University is also located in Brooklyn with the second oldest school of engineering and technology in the country, and has research facilities, notably the Nelson Institute of Environmental Medicine, in Sterling Forest, near Tuxedo, New York.

And NYU has established itself as the first global network university, with a comprehensive liberal arts campus in Abu Dhabi - the first to be operated abroad by a major U.S. research university - and other sites for study and research in Accra, Ghana; Berlin, Germany; Buenos Aires, Argentina; Florence, Italy; London, England; Madrid, Spain; Paris, France; Prague, the Czech Republic; Shanghai, China; and Tel Aviv, Israel, among other locations.

New York University: Mission

Great cities are engines of creativity, and New York University takes its name and spirit from one of the busiest, most diverse and dynamic cities of all. Thriving beyond borders and across academic disciplines, NYU has emerged as one of the most networked and extensive worldwide platforms for learning, teaching, researching, building knowledge, and inventing new ways to meet humanity's challenges. Its students, faculty and alumni feed off the stimulating power of swirling intellectual and cultural experiences by mastering academic disciplines, expressing themselves in the arts, and excelling in demanding professions.

New York University's mission is to be a top quality international center of scholarship, teaching, and research. This involves retaining and attracting outstanding faculty who are leaders in their fields, encouraging them to create programs that draw outstanding students, and providing an intellectually rich environment. NYU seeks to take academic and cultural advantage of its location and to embrace diversity among faculty, staff and students to ensure a wide range of perspectives, including international perspectives, in the educational experience.

School of Professional Studies

For 80 years, the NYU School of Professional Studies has fostered a rich tradition of serving the City and the world, by providing educational experiences that prepare students who are just beginning on their career path, as well as those who are seasoned veterans. The School of Professional Studies offers undergraduate degree programs, graduate degree programs and certificates, and noncredit courses and diplomas in a wide range of professionally oriented areas of study. All programs are designed to meet the academic and professional needs of students throughout their lives and their careers. Academic departments offer programs that provide a theoretical and practical education that is enhanced by rigorous curricula and an entrepreneurial culture and mindset. Classroom learning is translated into real-world contexts by a cadre of outstanding faculty members who are leading practitioners in their fields.

The School of Professional Studies consists of the following departments and/or program areas:

- American Language Institute
- Applied Politics
- Career and Life Planning
- Center for Global Affairs
- Center for Publishing
- Division of Programs in Business
- Foreign Languages, Translation, and Interpreting
- George H. Heyman, Jr., Center for Philanthropy and Fundraising
- Graphic Communications Management and Technology
- Health Information Management
- High School Academy
- Humanities, Arts, and Writing
- NYU School of Professional Studies Initiative for Creativity and Innovation in Cities
- Paul McGhee Division
- Professional Advantage Program
- Schack Institute of Real Estate
- Tisch Center for Hospitality and Tourism
- Tisch Institute for Sports Management, Media, and Business

The Tisch Institute for Sports Management, Media, and Business

The Tisch Institute for Sports Management, Media, and Business is a dynamic and growing educational and research center located in the heart of Manhattan. The Tisch Institute offers an extensive complement of sports management, media, and business academic programs, including degree study, continuing education, and noncredit courses. The undergraduate program attracts highly qualified traditional-aged students and is unique for fully integrating a liberal arts education with rigorous, professionally-focused offerings. The Master's in Sports Business accommodates both full-time and part-time applicants, and equips students to become effective practitioners and agents of change across the sports industry, particularly in the areas of management, media, and business. The Tisch Institute also sponsors invitational lecture series and conferences on topics ranging from sports analytics to the ethics of performance-enhancing drugs.

The Tisch Institute is situated in the sports business capital of the world which is home to six professional sports leagues, 12 professional sports franchises, and several prominent sports television networks, sports agencies and multi-use sports facilities. The Institute currently offers curricula that take full advantage of this location through site visits, guest lectures by prominent leaders in the industry, internship experiences, and partnership courses that give students an all-encompassing view of a multi-billion dollar industry that grows in volume and significance each day. Sports opportunities specific to New York City provide Tisch Institute students with a competitive advantage over many of their peers who study at other locations. They have gone on to assume leadership roles as vice presidents, directors, and managers in venerable organizations such as, but not limited to, the National Football League, Major League Baseball, National Basketball Association, National Hockey League, Major League Soccer, New York Yankees, Brooklyn Nets, International Management Group (IMG), Madison Square Garden, and the Barclays Center.

Three years ago, the Tisch Center for Hospitality, Tourism, and Sports Management was divided into two separate programs: the Tisch Center for Hospitality and Tourism, and the Tisch Institute for Sports Management, Media, and Business. Recognition as an independent program is growing and the Tisch Institute is well positioned to launch new programming that will further enhance its brand.

Over the past few years, the Tisch Institute has attracted new faculty with expertise in marketing and media, global sports organizations, sports real estate investment, and research. This added expertise allows for the creation of curricula that are more focused, rigorous, and better aligned with the needs of the sports industry. Additionally, this added expertise positions the Tisch Institute to increase collaboration with other SPS divisions on cross disciplinary courses and research. New degrees in the areas of sports analytics, media and marketing, and global business are under consideration, geared toward creating significant market differentiation from peer institutions.

The Tisch Institute's eight full-time and 65 adjunct faculty members, along with a cadre of distinguished lecturers, prepare some 260 matriculated undergraduate and 90 graduate students to become leaders in their chosen fields. The faculty, thought leaders and expert practitioners and researchers, combine theory with real-world applicability in their curricula. In addition to the exceptional academic preparation, the Institute is also known for its strong ties to industry, including a large network of alumni professionals and leading sports industry advisory board members, which translates into extraordinary opportunities for students.

-
- Undergraduate Program
 - BS in Sports Management
 - Graduate Programs
 - MS in Sports Business
 - Diploma Programs (to acquire specific skill sets)
 - Athlete Education (proposed)
 - Continuing Education Programs of Study
 - 5-10 courses per semester
 - Students
 - 260 undergraduate students
 - 90 graduate students
 - Approximately 8-20 continuing education students
 - Faculty and Staff
 - 8 full-time clinical faculty
 - 65 adjuncts
 - 10 administrators
 - Alumni
 - BS Sports Management Alumni: 440
 - MS Sports Business Alumni: 439

The Position

The Associate Dean will have an entrepreneurial mindset and a vision for the academic and strategic direction of the Tisch Institute. S/he will lead the faculty in developing rigorous curricula rooted in strong pedagogy and in maximizing industry partnerships that enrich the student experience. S/he will also provide administrative oversight of the unit and manage a large staff of dedicated professionals. The Associate Dean will work collaboratively with other units across the School. The position reports to the Dean of NYU's School of Professional Studies.

The successful candidate will possess advanced academic and professional credentials (Ph.D. or comparable terminal degree preferred), a strong research background, and a minimum of ten years of substantial experience in higher education. Additionally, the candidate will provide direct evidence of working relationships with sports industry professionals. S/he will be qualified to hold a clinical faculty appointment (rank TBD). The Associate Dean must be committed to advancing the global presence--and global character--of the academic programs, and to developing the future leaders of the sports industry, and, in the process, growing the identity and reputation of the Institute.

Contact Information

The review of credentials will begin immediately and will continue until the position is filled. For best consideration, please submit materials before February 15, 2017. Inquiries, applications (cover letter and curriculum vitae), and nominations should be forwarded in confidence and electronically, to:
